TORBAY COFFEE TABLE

OXFORD GARDEN

About Materials

Resin wicker is made of synthetic polyethylene material. Unlike its alternative, natural wicker, resin wicker is durable and elastic, providing a comfortable seat that will resist weathering and last. Teak is a tropical hardwood. Because of its high oil content it is resistant to rotting, bug infestation, and the effects of wind, rain, sun, and snow. If left untreated Teak weathers naturally to a beautiful silver gray color. Some surface roughness may develop, especially at the end grain, but over a period of about one year, the natural weathering process will stabilize. Small surface cracks that may appear in no way affect the structural integrity of the furniture.

Care Instruction

Resin wicker requires minimal maintenance, as it is resistant against the sun's UV radiation, humidity and water. To clean, wash with mild soap and water. Teak weathers well however, we recommend a routine application of Cabot's Australian Timber oil in extremely dry climates. A routine oiling is also recommended for furniture to be used for dining purposes to discourage staining from food and drink spills. For seasonal cleaning rinse the Teak well and then scrub (using a sponge or soft bristle brush) with a mild solution of water, laundry detergent and a little bleach. Rinse with fresh water.

Warranty

Oxford Garden warrants all outdoor furniture and accessories to be free from manufacturing defects in materials and workmanship. Provided the furniture is assembled correctly and is subjected to normal use, Oxford Garden will cover your outdoor furniture under the following five, three and one year warranties. For more details regarding the Oxford Garden warranty, visit www.oxfordgarden.com/warranty.
